

Telemedicine

An essential service that you can use at all times

Privileged access to healthcare professionals

Decided to include the integrated Dialogue health platform with your group insurance? Congratulations on acquiring this new service! This means that you and your insured members can now benefit from remote healthcare services made possible through telemedicine.

Getting started

We'll need your help to get your organization started with telemedicine services.

Make sure to inform your insured members to go to the Client Centre to enter a valid email address to activate the service.

Then, all they need to do is follow the steps in the Client Centre to start using the services!

Benefits of Dialogue

Dialogue is a simple and logical solution for the vast majority of non-urgent cases.
One platform – Powerful benefits

- Privileged access to healthcare professionals
- Services offered 7 days a week
- Same-day medical consultation
- Speak to a professional in the comfort of your home
- Medical follow-ups and prescriptions
- Referral to other specialists
- For you and your immediate family
